2. The Soviets working at the arsenal are not employed there permanently but are members of a transient advisory mission. In the past other such technical groups have visited Chefoo from Dairen.

3. Four Soviet electricians (sic) are employed by the Communists as maintenance men in the Chefoo - Weihaiwei area.

4. Two Soviet airplanes, base unknown, reconnoitered Chefoo for half an hour on 21 April 1947.

5. Five Soviet airmen in three planes landed in a clearing outside a small village near Weihaiwei (122-06,37-31) on 20 April 1947. They were met by Communist soldiers, who entertained them for a week at a guest house in Tung Shan. Then, apparently without difficulty, took off from the clearing where they had landed.
